DETAILED ACTION

Claims 1-8 are pending in the application.

Election/Restrictions

Applicant's election of Group I, claims 1-5 and 8 in the reply filed on 6/23/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 6-7 are hereby withdrawn from examination on the merits, as they are directed toward a non-elected invention.

Claims 1-5 and 8 were examined on the merits.

Claim Objections

Claims 3, 5 and 8 are objected to because of the following informalities:

Claims 3 and 5 fail to further limit claim 1 in that they do not materially change the composition of claim 1.

Claim 8 is dependant upon claims 6 and 7 which are non-elected claims.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Baik et al. (US 5,980,870).

Baik et al. (US 5,980,870) disclosed a dental composition which contained an alcoholic/aqueous extract of Pulsatilla root (radix) , Gardenia fruit and Pueraria root to name a few (col.4, lines 13-21). Because the Instant specification teaches that the extract containing the carbohydrate stated in claim 1 is extracted via an aqueous/alcohol solution, it is deemed that the extract disclosed by Baik et al. contained the carbohydrate stated in claim 1. Because it is deemed that the extract is the same, the particular characteristics of the extract as recited in claim 4 would have been inherent properties of the extract disclosed by Baik et al.

Claims which state a particular administration regimen do not materially change the composition and therefore do not hold patentably weight.

Because the Pulsatilla root is found in combination with other plant extracts, it is deemed that the other plant extracts satisfy the requirements of a 'nutrient solution' since these extracts would contain carbon-based phytochemicals.

No Claims are allowed.
